## EQUIPMENT

At Berghaus we know that getting the right fit of a rucksack is really important.

To help us tailor the fit of our backsystems our range is built around three types of fit system.

Each of these three systems have a variety of benefits that are relevant to the end uses that the rucksack is used for.

### OPREMA

V Berghausu vemo, da je prav primeren nahrbtnik zelo pomemben.

Da bi nam pomagali pri prilagajanju ustreznosti naših podpornih sistemov, je naša paleta zgrajena po treh vrstah velikosti sistema.

Vsak od teh treh sistemov ima različne prednosti, ki so pomembne za končne uporabe, ki jih uporablja nahrbtnik

---

## SIZED SYSTEMS / ŠTEVILKE SISTEMOV

CYCLOPS & FUSION 3 BACKLENGTH MEASUREMENTS (FUSION 3 IS ONLY AVAILABLE IN SIZE 3 & 4)

CYKLOPS & FUSION 3 - ŠTEVILKE HRBTIŠČ (FUSION 3 je na voljo le v velikosti 3 in 4)

Size ŠTEVILKA	1	2	3	4
Back length (cms) DOLŽINA HRBTA V cm	34-40	38-43	43-48	48-54
Typical height (feet/inches)	5'0"- 5'5"	5'3"- 5'8"	5'8"- 5'11"	6'0"- 6'6"
Typical height (cms) VIŠINA V cm	153- 165	160- 173	170- 183	183- 198

### Additional information

Our sized backsystem include the world renowned Cyclops system and the newer Fusion 3 system. Both systems are available in a variety of sizes that give a more tailored fit for the individual, but without the addition of the mechanics required to build an adjustable system.

This simple and light approach makes the sized systems ideal for more rugged environments and longer duration trips where resupply is difficult and where you are likely to be carrying heavy loads perhaps in excess of 20kg.

#### DODATNE INFORMACIJE

Naš sistem vključuje svetovno znani sistem Cyclops in nov Fusion 3 sistem. Oba sistema sta na voljo v različnih velikostih, ki omogočajo prilagojeno prilaganje za posameznika, vendar brez dodatka mehanike, potrebne za izgradnjo nastavljivega sistema.

Ta enostaven in lahek pristop omogoča, da so sistemi velikosti idealni za daljša potovanja, kjer boste verjetno nosili težke obremenitve, ki presegajo 20 kg

---

#### ADJUSTABLE SYSTEMS NASTAVLJIV SISTEM

Size ŠTEVILKA	Men	Women
Back length (cms) DOLŽINA HRBTA V cm	16.5	14.5
	42	37
Back length	20.5	18.5
	52	47
Typical height (cms) Velikost osebe v cm	5'5" - 6'6"	5'1" - 5'10"
	165 - 198	154 - 182

#### Additional information

Our adjustable systems are based around the principle that one size can fit all. The backlength of the adjustable system can be varied to achieve a great fit on almost all sizes of people.

Adjustability is built into the Bioflex, Bioflex Light, Biofit, A-Trek & the larger Freeflow packs. These multiple systems allow us flexibility in designing rucksacks for different end uses and for a wide variety of loads.

Back length for Adjustable Systems (Bioflex, Bioflex Light, Biofit, A-Trek & Freeflow)

Back length is measured from the top of the hip bone to the apex of the shoulder (following the curvature of the body).

#### DODATNE INFORMACIJE

Naši nastavljivi sistemi temeljijo na načelu, da lahko ena velikost ustreza vsem. Gibanje nastavljivega sistema se lahko spreminja, da se doseže odlično prilaganje na skoraj vse velikosti ljudi.

Prilagodljivost je vgrajena v Bioflex, Bioflex Light, Biofit, A-Trek in večje nahrbtnike Freeflow. Ti večji sistemi nam omogočajo prilagodljivost pri načrtovanju nahrbtnikov za različne končne uporabe in za široko paleto bremen.

Dolžina hrbta za nastavljive sisteme (Bioflex, Bioflex Light, Biofit, A-Trek & Freeflow)

Dolžina hrbta se meri od vrha kolka, do vrha rame (po ukrivljenosti telesa).

---

#### ONE SIZE SYSTEM

	Unisex	Womens
Rucksack backlength (cm)	45	41

\* Our rucksacks with a one size system are manufactured with a backlength of 45cm (unisex) or 41cm (womens). This allows the packs to fit the maximum number of people.

Naši nahrbtniki z enim sistemom velikosti so izdelani s 45cm (uniseks) ali 41cm (ženske). To omogoča, da paketi ustrezajo največjemu številu ljudi.

XXL	11 - 12	46 - 47	12 - 13

#### Additional information / DODATNE INFORMACIJE

The gaiter is engineered to be a secure and tight fit on mountaineering boots, therefore you may prefer to choose a size larger than your normal boot size.

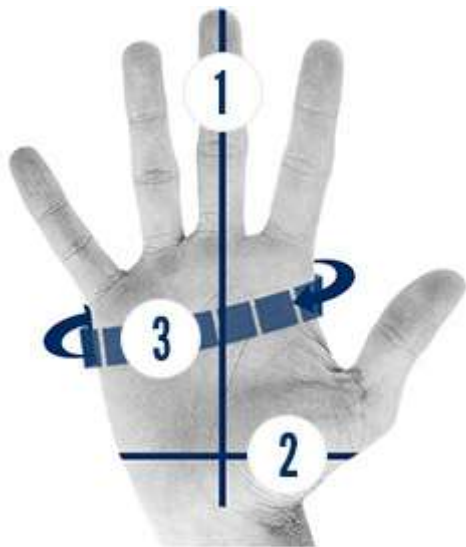

Gamaša je izdelana tako, da je varna in tesno prilegajoča se na planinske škornje, zato boste morda želeli izbrati velikost, ki je večja od običajne velikosti obutve.
